

TRIBUTE LOGISTICS, LLC

**RESIN PACKAGING
FULLY AUTOMATED**

Automated Packaging

Tribute Logistics, LLC offers automated Polyolefin packaging from Bulk Railcars to 25 KG or 50 LB bags.

FULLY AUTOMATED PACKAGING

Our state of the art, fully automated packaging system ensures accurate weight for each bag and based on the closed packaging system, contamination is virtually non-existent. Access to 180,000 square feet warehouse, with 25 truck loading docks, is strategically located in Pasadena, Texas and only 13 miles from Barbour's Cut Terminal. With the convenient location to Barbour's Cut, transit time is a matter of minutes instead of hours with other facilities outside the Houston area. unit. Our machines combine functions such as weighing, bagging, marking, and palletizing in one single unit.

POLYETHYLENE & POLYPROPYLENE PACKAGING

- From Railcars to 25KG / 50LB bags
- Check Weigher
- Ink Jet Bag Printing
- FFS Bagging Machine
- Robot Palletizing Capabilities

NET WEIGHER

HIGH-PRECISION NET WEIGHING MODULE

- Capability from bulk railcar to 25KG/50LB bags
- Easy maintenance: sensitive parts dust-protected, wash-down cleaning, quick-access inspection doors
- Best-in-class operating cost: few spare parts

KUKA ROBOT PALLETIZER

FLEXIBLE PALLETIZING

- Versatile: same arm handles the empty pallet, the slip sheet, and the bags/boxes (plastic, textile, paper)
- Maintenance friendly: long maintenance intervals, simple design
- Best-in-class operating cost: few spare parts and minimal time needed for maintenance

“We offer automated Polyolefin packaging from Bulk Railcars to 25KG or 50LB bags at a daily max capacity of 500 tons.”

FFS BAGGING MACHINE WITH WEIGHER

THE ECONOMIC FORM-FILL-SEAL MACHINE

- Flexible: suitable for standard and barrier films with a wide range of thickness and sizes
- Safe: well-formed, square-shaped bags provide better pallet stability
- Future-oriented: form, fill, seal modules with capacity of 800 bags/hour, energy saving design
- Maintenance friendly: step-in compartments, good accessibility
- Product type: Polyethylene and Polypropylene

MODERN USA
3005A Pasadena Freeway
Pasadena, TX 77503
